FRANK&FRANKIE

Dear Birthmother,

We'd like to take this opportunity to share some information about our family, in the hopes that getting to know us a bit will ease your mind about who will be adopting your child.

Frank and I met in 2011 on a blind date that was set up by a mutual friend. We dated for three years before getting engaged in Rome, Italy. We have been happily married for four wonderful years.

Our family is being built through adoption. We have had our share of heart ache by losing a pregnancy to miscarriage and then receiving bad news on our fertility quest.

Our hearts are calling for us to provide a loving home to an adoptive child. We both come from loving families and want to share that love with a child. We want you to be reassured that your child will be well taken care of and that you will always be a part of their life story, even when your not present.

When your child is placed with us we will offer your child a safe home in a quiet and friendly neighborhood (walking distance to a beautiful park) with lots of others kids to play with. Frank works outside the home and I am currently finishing my degree at UNLV online. We have two small dogs Nellie and Patsy who love to take walks to the park and sunbath in the sun.

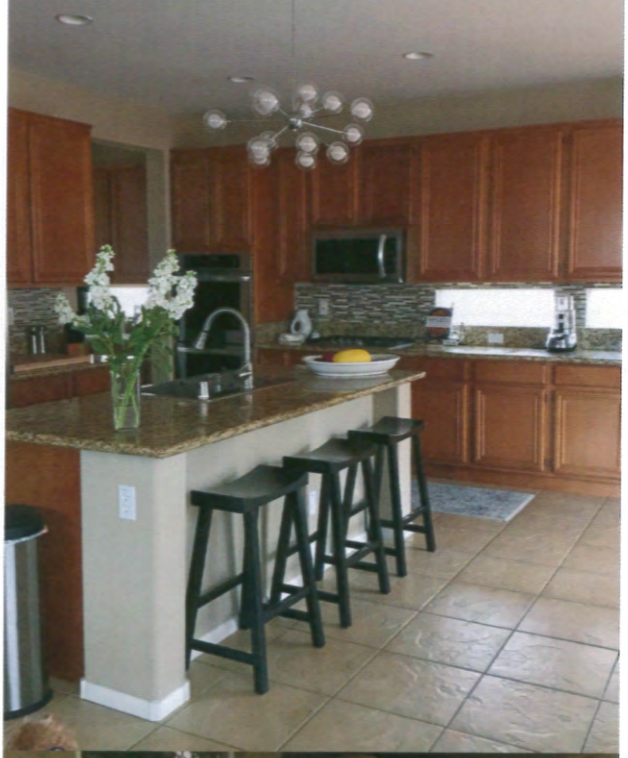
FRANK'S DAD AND MOM WILL PLAY A BIG ROLE IN SUPPORTING US THROUGH ADOPTION.

Our weekends include family days when the entire family gets together. We often enjoying relaxing at their home and barbecuing.

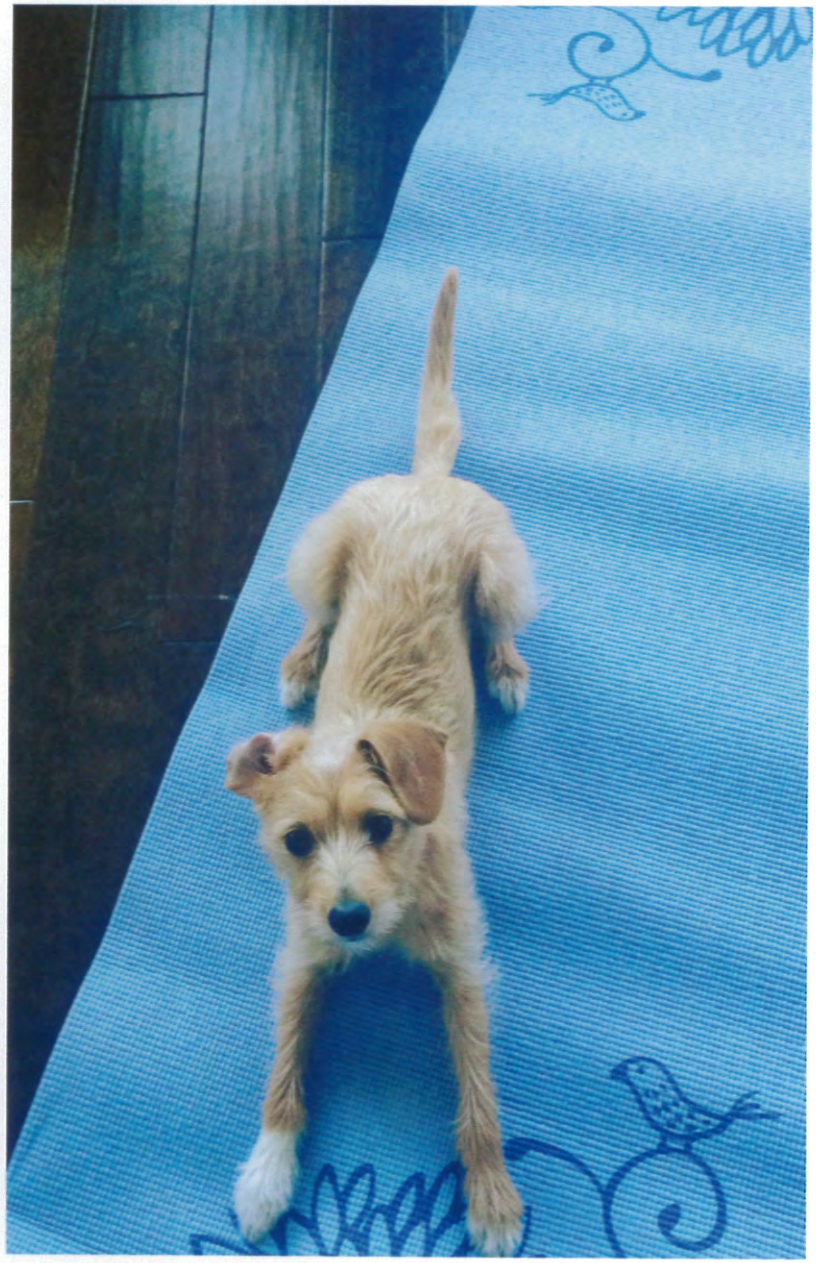
Frankie's parents still live in West Virginia. They enjoying camping, fishing, gardening and feeding the area's wildlife. We go back once a year to visit but talk on the phone almost every day. They are excited to have another grand child and support us in our adoption.

We moved here about three years ago and have really made the house our own. We also have a great park nearby that we go to almost every day.

The kitchen is definitely the center of our house. We have plenty of home made meals. That is our time to talk and catch up, no matter how busy we may get.



Our dogs love children and actively play ball and hide and seek with them. Nellie, who is a rescue dog, loves to practice her yoga moves. We have had her for 4 years. Patsy is a little over a year old and loves to play ball and wrestle with Nellie. Kona is Frank's parents dog but they all have weekly dog visits so they can play and lay in the sun.



SISTERS MAKE THE BEST FRIENDS IN THE WORLD

Frankie's eldest sister also lives in West Virginia and has one daughter. She was adopted at four weeks old by Frankie's parents. She enjoys vacations in Florida, reading and gardening. She is married and just retired. She is the best biggest sis a girl could ever want. Her daughter lives in Pennsylvania and just got married.

Frankie also has one middle sister that lives in Pennsylvania. She has one daughter and one son. Frankie is the godmother of her son. She just came to visit and celebrate her 45th birthday with us. She works full time and the kids are the most important thing in her life. Her daughter plays softball and her son loves theatre and performing in plays.

FRANK'S PARENTS

We spend plenty of time with Frank's parents and they are very excited to be grandparents. They met in college in Utah and have been married almost fifty years.

They live a couple of miles away, and we try to have family time at least once a week. We go on vacation together as well, usually camping in Southern Utah or rural Nevada.

We also go back to Hawaii every year, where Frank's mom was born to relax and visit family. She still has a very large family there still on several of the islands. She loves yoga, dogs, and is an avid reader.

Frank's dad is from Pittsburgh, but his family moved to Las Vegas in the 1950's. He is still working part-time to stay busy, and is a serious people person. He also loves walking the dogs, going to the gym, and is a real outdoorsman.

We spend a lot of time at the Las Vegas Golden Knights hockey games. We are ticket holders and would love to share this experience with a little one. Go Knights Go!

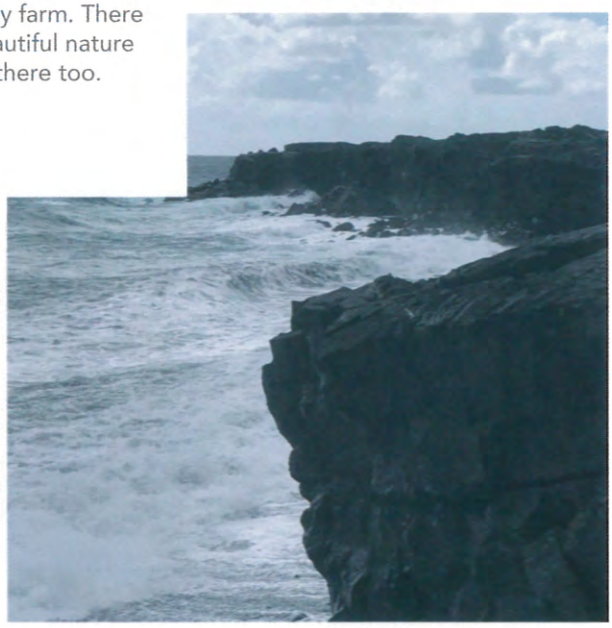
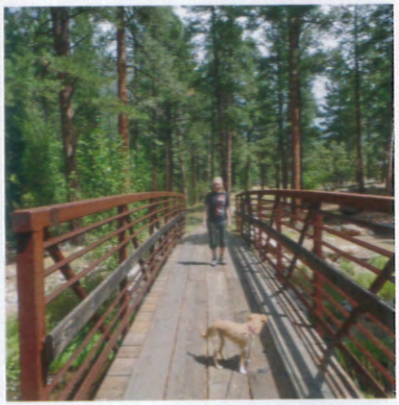
Hawaii a very special place in our hearts. We go back twice a year to enjoy the wonderful beaches and weather. There are lots of kid friendly activities to do.

The beach walk pier is one of our favorite spots to view tropical fish and crabs.

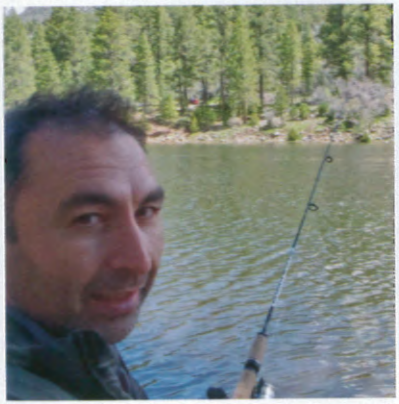
We enjoy Hawaiian culture. We seek out experiences that really make us feel like we are part of the community.

Ohana. Hawaiian for family. We have lots of relatives there that own a cattle ranch and family farm. There is so much beautiful nature to explore there too.



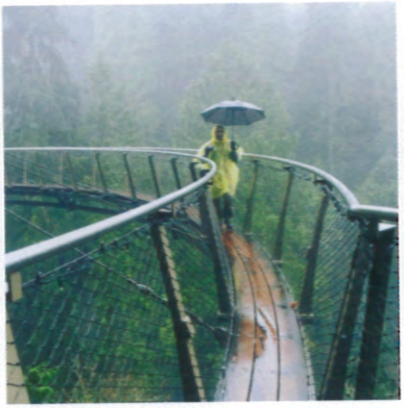


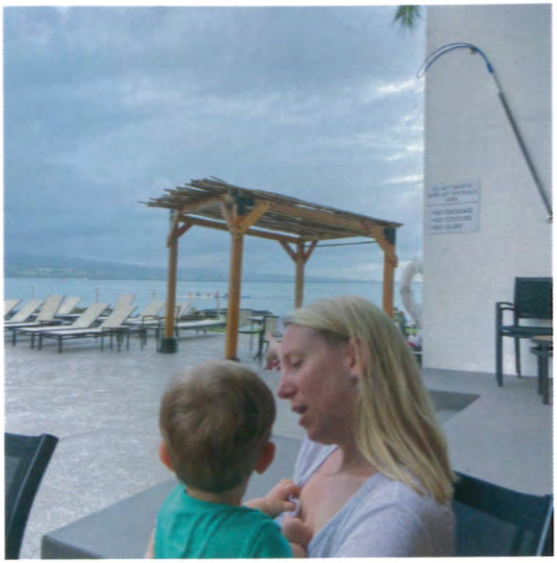
Our family vacations multiple times a year in Utah to enjoy their beautiful campgrounds and national parks. We love to view natural wildlife in action and see how the seasons change. We are all avid fisherman's and cook up our fresh caught fish for dinner. It is a great family bonding event.

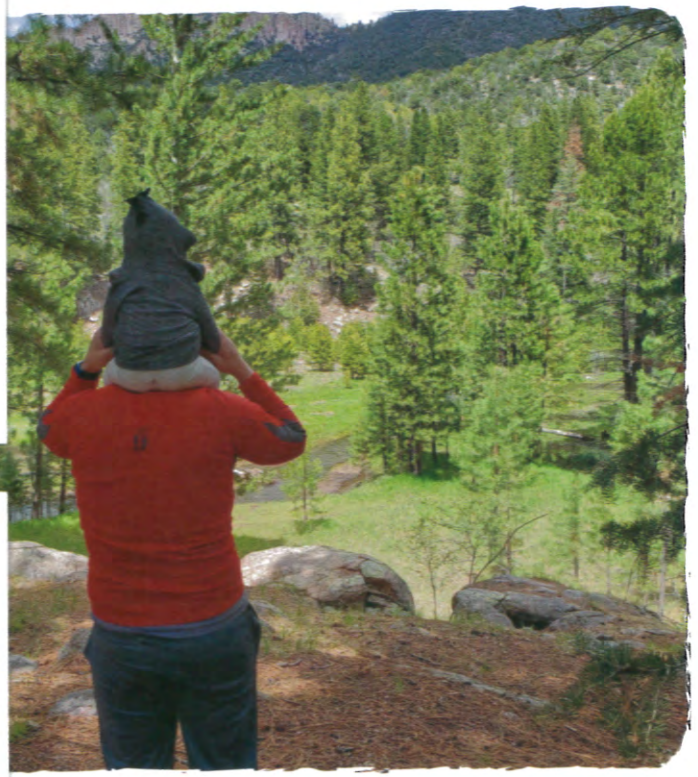


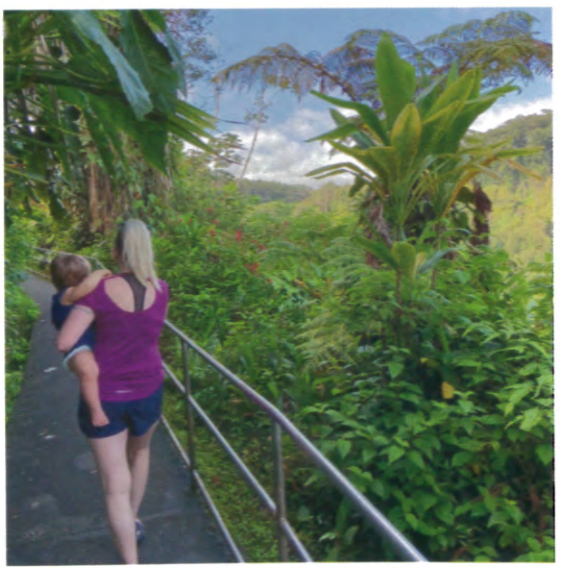
Recently we have started traveling to Mexico to immerse ourselves in their food, hospitality and culture. We hope to keep up the tradition when we expand our family.

THE ADVENTURES CONTINUE









We also are licensed foster parents. Last year we raised a beautiful baby boy who was eventually reunified with his family. We learned so much about babies, parenting, and everything in between. Through the highs and the lows, we loved being parents and this brought us even closer together. Our house is still baby-proofed!
