

William and Raegan

Hello there!

Hello new friend! We are William and Raegan. It's so nice to meet you! We are so grateful for the opportunity to write to you about our family, our home, and our hopes and dreams for a child.

We know you are probably looking for a wonderful family and future for your child. And we are so excited to begin our family and love a child with all our hearts. So maybe we are looking for each other?

While we could never imagine what emotions you are going through, we have such great respect for the demonstration of love you have made by choosing life for your child with adoption.

We want you to know that we are so excited to become first-time parents! We would love the opportunity to adopt a child and be able to guide them and love them every day of their life!

We wish you blessings on your adoptive family search. We know this is an important decision. We hope you feel connected to us. We will be praying that the Lord will provide you all the peace and wisdom you need.

You are in our thoughts and prayers!

William and Raegan

The story of us

HOW IT BEGAN ~

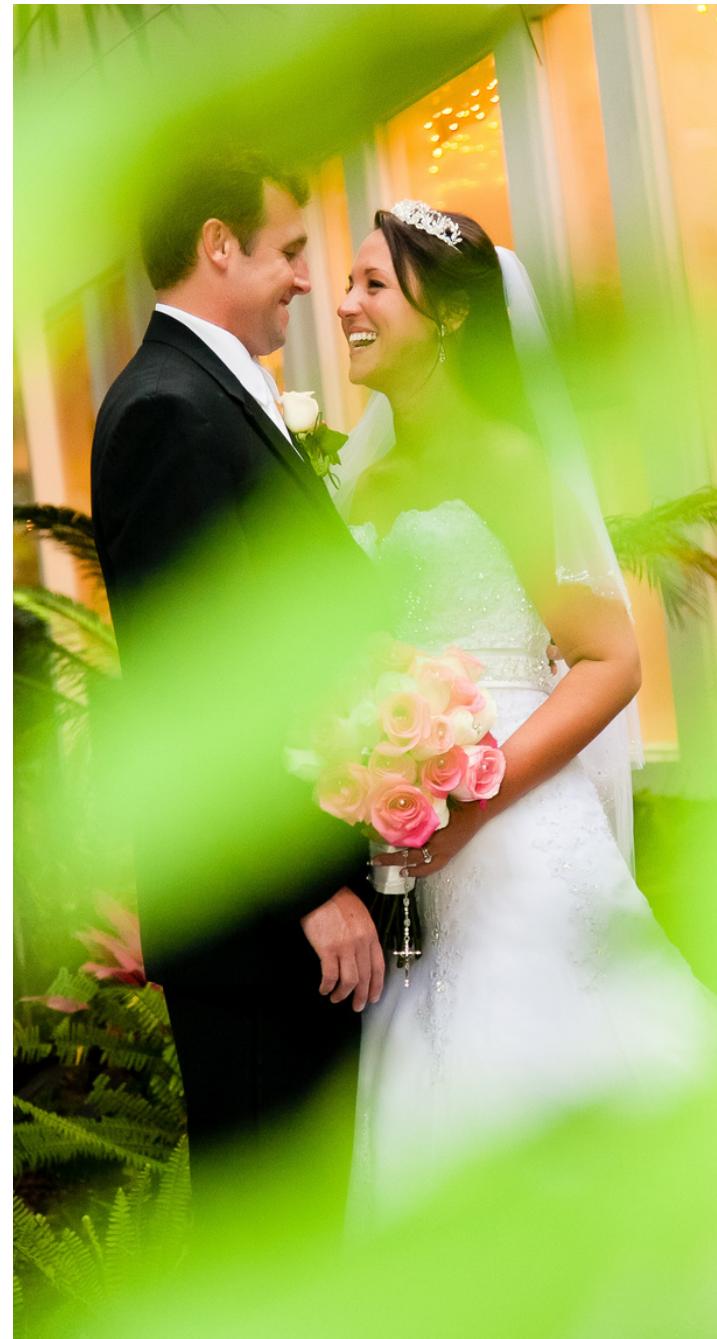

Please forgive us for sounding corny, but we realized on our first date that we had something special together. We took a chance by going on a blind date, and boy are we glad we did! The old saying of "when you know, you know" was true for us. We talked and laughed for hours on that first night, and we have been inseparable ever since.

OUR MARRIAGE ~

We dated for about six months before William proposed on a surprise vacation. We have been happily married for over 10 years. We aren't just partners in life, we are also best friends. We know each others personalities and quirks, we know how to make each other smile, and we know how to solve problems together gracefully.

HOW IT'S GOING ~

We have learned a lot together throughout the years, and we continue to help each other grow in positive ways. We have learned that we can always count on each other no matter what happens in life. Most importantly, we value and respect each other every day, and we are so grateful that God blessed us with each other.

— Why Adoption —

We will never be able to conceive ourselves, so adoption has always been on our minds and hearts. Finding out we would not be able to give birth was very sad for us, but we believe God always has a plan for everyone. We believe we are meant to adopt. One of our favorite sayings in the bible is that we should all show kindness to each other and help each other. We think adoption is a beautiful example of that!

We wanted to make sure we had our life in order financially, emotionally, and physically before beginning our adoption journey. We want to always be able to fully provide for a child. We really feel as though we have created a wonderful life together, but we are greatly missing the joy of a child in our life. We are so excited to become parents and share our love. We can't wait for that day to come!

"Adoption is such a blessing. It brings us all together with a beautiful purpose and goal of love and hope for a child and their future."

This is Raegan

Hello! I'm Raegan. I come from a wonderful family whom I am very close to. I grew up going to church every weekend and I was raised in a family with a strong faith in God.

I have always been active and athletic. As a kid, I could not sit still for long! Growing up I played the violin. I also enjoyed playing basketball, dance, track, volleyball, cheerleading, and softball.

I have always loved helping children, so becoming a teacher was an easy choice for me. I love my job, and I love having the chance to impact a child's life in such a wonderful and positive way.

I am incredibly excited to become a mother! I plan on being a stay at home mom. I want to make sure our adopted child has the best education, and the best life experiences that are possible.

This is William

Hello! I'm William. Family and Faith have always been important to me, and a big part of my life. Growing up I went to church every week with my family. I also attended private Catholic school.

In school and college, I enjoyed playing soccer and football. I have always liked academics. I really loved science and math, and that passion for both subjects lead me to a career in Engineering.

I love my job. I have been in my field of work for over 20 years. I have helped design and build many skyscrapers, airports, buildings, bridges, and roads throughout the country.

I have always wanted to be a father! I am so excited to welcome a baby into our lives. I am so grateful of the amazing gift a birth mother gives to childless couples such as ourselves.

Our Family

We are blessed to have wonderful relationships with our families. Both of our parents have been married for over 50 years and they are amazing role models. They taught us how to work hard, and how to be kind and compassionate adults. Our family is a fun mix of both country and city. We have sisters, brothers, nephews and nieces. We all get along great!

We aren't just a family, we are also a huge support system for each other. We always love, help, and encourage each other. There is a lot of laughter and hugs in our group. We enjoy spending time together and we treasure the memories we make each year. We can't wait to have our adopted child join us in making new special memories with everyone!

Adoption is when families are united by God,
and chosen by each other.

OUR HOME

is our happy place where we can "just be".

We live in a cozy two-story house in the mountains. Our home is our "happy place" where we can relax, be silly, play with our dogs, and have family and friends over.

We spend a lot of our time in the kitchen cooking together. We love coming up with new recipes! We also love playing a fun game of ping-pong in our basement.

Outside we have a gated backyard and patio surrounded by trees. It feels like you are in a treehouse. We love sitting out there and reading a book. We also love making smores at our firepit when its cold out.

*a house is made of bricks and beams,
a home is made of hopes and dreams.*

OUR MOUNTAIN TOWN

Our town has been voted as one of the safest places to live in the country. It is very family friendly, and there are a lot of family events that go on here. We have great neighbors! Everyone is friendly, and we all help each other out. We live within walking distance of lots of great parks and scenic walking paths.

The views are beautiful! And we see all kinds of wildlife and nature. We are just a short bike ride away from some of the best schools in the county. We also live near great shops, museums, theatres, libraries, restaurants, cafes, zoos, doctors, and hospitals. We think it's a great place for a child to grow up in.

Our Dogs

We have 2 sweet and friendly little dogs! Mia is a Yorkie, and Lexi is a Maltese. They are our little buddies, and we love them dearly!

They enjoy hanging out with us on the couch, and they love running together through the snow and on the beach.

And of course they also love eating treats...especially sneaking some popcorn when they can!

— Our Interests —

We believe health is important. We think it's important to eat healthy and take care of yourself. But it's also important to be soulful, and to keep growing your mind and challenging yourself by learning new things and trying new activities.

Things we enjoy doing: going to church, praying, reading, hiking, traveling, painting, exploring, going to museums, art, walking our dogs, yoga, playing chess, growing our own vegetables and plants, cooking, and spending time with our families.

We like to be outside and active. Every new season brings new activities to enjoy! In the winter we enjoy skiing, ice-skating, and snowboarding. In the fall we enjoy going to hot-air balloon festivals and apple picking. In the spring and summer we enjoy fishing, boating, paddleboarding, and riding bikes.

We love to Travel

We enjoy traveling and learning about new places and their history. We would love for our adopted child to join us on all of our fun exploring adventures!

Traveling offers many great benefits for kids. They learn about history, diversity, and cultural awareness. They learn how to be brave in new experiences and explore their surroundings. They also learn how to respect and love nature.

"We would raise your child in a home where faith in God, and the love of family are always the foundation."

Our Faith

Faith has always been a huge part of both of our lives, and it has helped shape who we have each become as adults. Our beliefs are important to us. We were even married in our Catholic church (picture below). Life can have its challenges, and we know our trust in God has helped us when we faced difficult times.

We have seen how having faith in God has had such a positive impact on our nephews and nieces as they have grown up. We believe it helps children develop a strong character and integrity, it helps them develop kind relationships with others, and it gives them a sense of comfort and hope for their future.
