“a person’s a person no matter how small.”
- Dr. Suess
hello!

There is no way to express our thanks for what you will give us, except to bring a lot of joy to your child through our love and devotion toward raising him/her in a loving environment that will allow them to shine as whoever he/she will desire to be.

We have a huge network of extended families/friends of all races and cultures and your child will be welcomed into our world by all. We want to have a child to grow our family and, while many people have a child and then live around the child, we want to have a child incorporated into our world. We intend to raise our child to be independent and to know he or she has supportive parents who have lots of life experience to share. We will provide a safe and secure place for your child and will also pass along what guidance we can so that she or he can grow up and explore.

We both have huge hearts and it does not take much to steal them, so we believe in love at first sight. When we see our baby for the first time it will be to fall in-love with him or her.

Lynette and Jt
She is an incredibly caring and fun person who loves to meet new people and to laugh. She has tremendous wisdom and a desire to learn and she never quits. She has grit and spirit and has come through a lot of adversity—and her smile lights up a room.

She also enjoys visiting her son, Keith, and granddaughter, Maddie, in Arkansas, often.

Her Job:
Lynette sold her dive shop business in the Philippines and now occasionally travels to teach MRI (she is a radiology technologist) but mostly stays at home with their daughter, Kaley and son River. She also has a MA in Psychology.
JT is an avid reader, loves fitness and is excited to be a dad again. He has a great imagination and sense of humor. He does not succumb to adversity and he can always find a way to see the good in anything and make the best of any situation.

**His Job:**
He is an attorney for Tesla by day and writer/film producer by night.
This past year we left Atlanta and moved to Texas for JT’s work and built a new home that we just moved into in September. We now live on a little over an acre and in a community with a lot of children that we really enjoy. It is very quiet but with a very diverse and happy bunch of people. Grandma Kay (JT’s mom) moved here with us, she bought her own house and we see her weekly. Grandma Darline comes to see us often from Missouri. She rides the train here and back.

We have a huge backyard with a garden, pool and since it is so new we have lots of plans for it. Kaley, River and Lexi, our dog, loves to play in our great back yard. We are also in the process of building a second home in Colorado close to a ski resort. We take Kaley there every year to get her on skis and River will also start when he is bigger. The Colorado house will be ready in January.

We have been together for almost 19 years. We met through the magic of the internet, and once we met we’ve been together ever since. We share a great passion for living and experiencing as much as possible with each other. We have many hobbies and we love adventure through skiing, scuba diving, traveling and video gaming. We also love the simple things involved in being at home.
Kaley is our daughter who will be 6 yrs old in March, and our new son River will be a year old in March, both are the joy of our lives (along with our dog Lexi). We can’t imagine our lives without these two. Kaley is outgoing and fun, she never meets a stranger and loves playing with her kitchen, jumping on her trampoline, riding in her car and playing with her dolls. Kaley is in Dance, Tennis, Swimming and has a private tutor for home school until she can start school. She helps us cook in the kitchen. She loves to go on trips which we try to do often like the zoo, aquarium or weekend fairs, etc. She is outgoing and funny. River is a happy baby that LOVES his big sister and Lexi.
